

THE Gleichen Call

Twelfth Year, No. 52

GLEICHEN, ALBERTA, THURSDAY, MARCH 20, 1919

\$1.50 Per Year

QUEENTOWN

George Todd has started back to Scotland to run his father's farm.

John L. Ash and H. Smalcombe have returned from their visit to Indiana and Michigan.

David Oster has rented Fred. Beggs' farm and will put in a big crop this spring.

Ed. Hoffman has returned from California. Steve Williams and Earl Mills has also returned.

Harry Dietz is coming back to farm his section 18 this summer. Harry thinks that two years of loafing is enough.

Alex. Godkins, one of Majorville's most successful farmers has about 1200 acres now ready for crop this spring.

On Wednesday, March 26th, T. H. Beach will offer at a credit auction sale in Cluny F. E. Renaud's horses, cattle, implements, etc.

The Bank of Hamilton is now open for business at Milo. Arthur McIvor, formerly accountant at the Vulcan branch, is the manager.

Mr. Campbell, the man from Missouri who bought Anton Beggs' farm, has appeared on the scene and intends to farm chiefly with gasoline power.

After being closed since November 1st the Pioneer School opened on Tuesday, March 4th, with Mr. Springbelt, a returned soldier, as teacher.

T. H. Beach will auction all of P. H. Stumpf & Son's livestock and farm machinery Thursday, March 27th, northeast of Milo. For full information see posters.

Jay Ebbe, who sold out all his stock and farm implements on March 4th and who has rented his farm to Jack Dietz, is leaving for the state of Washington in a few days.

Wm. Oster, one of Queenstown's homesteaders who left for Scotland six years ago and went through the whole four years of war, is expected to return here this summer. He married a girl from his native land two years ago.

War Savings Stamps Promotes Thrift.

The snow and cold weather we have had lately is a little tough on us after being used to California weather. Still it is the best thing that could happen to the dried out land and it is bound to put some moisture into the ground.

We are having another dose of poor mail service and for more than a week we had no mail at all. It appears that nobody is responsible for the bringing out of the mail. It is about time something was done to put us back on the map again.

Everyone admits that Mrs. Onstad knows all about pianos. Look up her ad. on page 5.

J. P. McArthur Still a Gleichen Worker

J. P. McArthur, formerly M. L. A. for the Gleichen constituency, paid a business visit to town last Friday and met a number of his friends. The past year he has spent considerable time between here and Chicago, where he sold trainloads of Alberta beef.

Asked if he was still interested in politics he said he always would take an interest in politics and particularly anything that concerned the Gleichen riding and his many friends.

He said he was still working to see that the promises he made were fulfilled in detail and believed it would not be long until his program was carried out.

Already the Legislature had given out that the telephone line delayed by the war would be built exactly as he had promised, and he had every reason to believe that the Agricultural School he had worked so persistently for during his terms of office and promised in the last election would be built in Gleichen constituency.

It was a great satisfaction to him to be able to make good his election promise to this constituency, even though defeated in the last election by a very small majority.

Laughing he said "I don't yet feel as though I was licked in that election. The majority was so small. Perhaps I am like the Irishman who had to be told by several of his friends he was licked before he believed it."

To Organize Gleichen G. W. V. A. Branch

Saturday Night, March 29th

Sergt. Jack W. Moss at the request of a number of returned soldiers is busy organizing a branch of the G. W. V. A. for Gleichen and he already has a long list of names of men who have agreed to join here. He asks that all interested write or give him their names. A meeting for organization purposes is called for Saturday night, March 29th, in the Town Hall, when a good crowd is expected to attend. It is figured fully 200 members will join this branch. The big advantage of a local branch is that the men will receive here daily all the information the same as at Calgary concerning the land, etc., and can have many social gatherings.

After the organization The Call invites all the returned men to partake of light refreshments at our Palace.

The donors to the Victory Naval dance were the following: Messrs. Chris. Bartsch, T. H. Beach, J. O. Begetie, D. Brown, W. W. Brown, J. Cameron, W. B. Campbell, O. Desjardine, Emil Griesbach, R. Hill, E. D. Hardwick, Dr. Hoey, Gleason House, W. H. James, J. E. James, E. Jones, F. N. Lett, W. McHugh, J. O. Morton, G. R. Matthews, M. Munroe, Basil Payne, B. Ramsbottom, J. H. Wall, W. Walsh, L. M. Webster, Jas. Young and A. R. Yates.

A. R. Tudhope, auctioneer, will offer at auction on Thursday, April 3, a fine bunch of livestock, farm machinery, etc., the property of A. W. Walker, 6 miles north of Gleichen. See poster and announcement next issue.

Agricultural School for Gleichen Riding Announced

A telephone message received by The Call as we go to press states that Hon. C. R. Mitchell stated in the House at Edmonton that the annual budget provided for three more Agricultural Schools to be built in Alberta and that one of these would be erected in the Gleichen constituency. Thus John P. McArthur makes good his election promise. In a day or two it is expected the exact point of location will be made public.

Gleichen has worked persistently for this for more than ten years. Patience is a virtue.

Gleichen Soldiers War Memorial Fund

Not a few are asking why the names of the soldiers and the subscribers to the Memorial Fund do not appear in The Call every issue. At present the space is required to publish them all would require at least one extra page. Also the actual cash we have paid out on this, to say nothing of the space and time we have spent on it, places it beyond our means. However, they will appear again and we would ask the collectors to send in their full reports in the meantime and all who intend to subscribe to inform the collectors. When we say each line of type costs The Call more than one cent the reason is evident.

Pte. S. E. Carreck Returns From War

Pte. S. E. Carreck returned to Gleichen Sunday from Overseas to visit his brother Harry before proceeding to the Pacific coast. He was among the first men to volunteer from Gleichen and put in two years and four months in the trenches without a break, save for an odd holiday such as Christmas. Through all the great battles he passed and arrived home without a scratch. However, as a souvenir he has a match case with a bullet hole through it and a note book with another hole just through it, where the bullet stopped, not even marking his skin. The match case and note book were in his breast pocket at the time and it is very evident had the bullet not been spent when it reached him he would not be here to greet his many friends and to cheer them with his merry songs and good stories.

Navy League Thanks Committee for \$344

Editor Gleichen Call:

Dear Sir,—Would you kindly allow me space in your paper to thank the committee who so generously donated the total expenses for the Gleichen Naval Dance in aid of the Sailors Widows and Orphans Fund. It gives me great pleasure to acknowledge the very handsome sum of \$344.80, which I have applied to that fund and to thank the promoters of the dance for selecting so worthy a cause for their support. I am,

Yours faithfully,
JOHN A. IRVINE,
Hon.-Sec. Navy League,

Profit Sharing

A wide breach between Capital and Labor exists throughout the industrial world in all nations, and despite all the sincere efforts being put forth by governments, employers and labor leaders the breach seems to be widening. During the war, in the face of a dire peril threatening all classes and all nations, Capital and Labor joined forces and by splendid co-operative, patriotic effort accomplished great things and proved an essential factor in achieving victory. Now that victory over the common enemy has been won, and the military and naval struggle in Europe ended, there appears to be grave danger that an industrial war will follow within the nations.

Speaking generally, Capital realizes that social and industrial conditions and relationships between employer and employee as they existed prior to the war cannot be continued. Wages cannot drop to their pre-war level; hours of labor will inevitably be shortened; working, housing and social conditions in general must be bettered. Capital appreciates these facts and is prepared to meet them to a very large extent. Capital contends, however, that this social revolution cannot be successfully brought about in a week, or a month, or even a year. With all the goodwill in the world it will take time to work out this evolution if Capital is not to be ruthlessly destroyed and industrial activity reduced to a state of chaos.

Labor, on the other hand, suspicious of Capital and fearful of the permanent loss of rights and privileges which the workers voluntarily surrendered during the war, is impatient at delay and demands immediate action. Most of the responsible leaders of organized labor recognize that Capital has a huge task ahead of it in re-transforming industry from a war to a peace basis; that the financial world is unsettled; and that it is impossible for Capital to grant all Labor's demands at once. But the great body of workers do not, or will not, see this; and the regrettable tendency is everywhere evident for the workers to break away from and disregard their own leaders.

What is clearly needed is the creation of a feeling of mutual confidence between these two parties; the evolution of a plan which will satisfy both that neither is trying to take advantage of the other. It is urged in many quarters that this can be established by the inauguration of profit-sharing policies. Workers are now insistently demanding that they be given a larger share of the wealth produced by their labor. Capital and Labor are, in reality, partners in industry. Neither one can get on without the other. But Labor holds, and with some justice, that in the past Capital has received the major portion of the profits resulting from the partnership. Their labor, they claim, is not merely a commodity to sell, but something which, like Capital, has a right to its fair share of the wealth resulting from the combined use of

Capital and Labor. Labor asks for a share of the profits of industry.

Profit-sharing policies are now being tried out in Great Britain, United States and Canada. A few days ago, on the occasion of the twenty-first anniversary of the business, the Robert Simpson Co., of Toronto, announced the inauguration of profit-sharing with its large army of employees. One of the large industrial concerns in the United States, employing about 10,000 hands, has adopted a novel profit-sharing policy. The Company's plan provides: "That after present capital and permanent labor have each been justly compensated, having due regard to the cost of each (the cost of capital and the cost of living) then the additional profits accruing from the joint employment of permanent capital and permanent labor shall be divided equally among them—fifty, fifty." Individual and departmental efficiency is to be rewarded, and there is to be increasing reward for continuous service, but these rewards are to have no influence upon the periodical wage readjustments.

Commenting on this scheme, a prominent and influential United States paper regards it as likely to provide a basis for the adjustment of the entire labor question, and says: "It is one of the complaints of Capital that the demands of Labor organizations are often unjust, and are instigated, for the most part, by labor leaders whose occupations depend upon things being upset in the industrial world. At the same time it is known that there are frequent cases in which strikes occur in direct opposition to the advice of labor leaders. Whatever merit the argument may have, it is obvious that if Labor were satisfied with conditions no amount of agitation, on the part of anyone, would be likely to bring about strikes. If, for example, the workers were to see that it was to their personal interest that the concern by which they were employed should turn out the largest amount of products, and the best made goods that could be produced, they would probably give little heed to the plea for a shorter working day. It is generally agreed that strikes are tremendously costly. If afforded an opportunity to participate in the prosperity of their employers, it seems altogether likely that employees would see the justice in taking also their share of possible losses. The elimination of suspicion and selfishness would go a long distance toward bringing about a better understanding between Capital and Labor, and a step toward that end seems to be the first one to take."

Rumania's Plight

Queen Says Only Food Will Save the Country

Paris. — Queen Marie of Roumania, declares that in spite of the plight of her country and the sufferings of the people in the war, there is no danger of Bolshevism there if supplies of food can be secured. Speaking of conditions in Rumania during the war, the queen said:

"We suffered even worse than did Belgium. She had Great Britain and France by her side, and behind them stood the United States, while we had only Russia to depend upon. When the Russians came to assist us they did was to eat our food. They were never of any real aid. German plotters saw to that, and when Russia broke we were absolutely isolated."

German Plotters Gets Appointment
Weimar. — Dr. Heinrich F. Albert, privy councillor, and formerly general attaché of the German embassy at Washington, has been appointed an under secretary of state and given the direction of the chancellery.

In investigations conducted in this country since the entry of the United States into the war, the name of Heinrich F. Albert has been closely connected with various plots in the German interest in conjunction with Count von Bernstorff, the German ambassador to the United States. Dr. Albert was extremely active in German propagandist work and in the promotion of various German financial schemes in this country.

Increased Acreage Under Wheat
Regina, Sask. — There is every prospect that there will be an increased acreage seeded to grain in the Regina district this year. Major Complin, manager of the Sterling Bank of Canada, is of the opinion that the increased acreage under wheat in the territory tributary to Regina will be in the neighborhood of 20 per cent. in excess of that sown to wheat last year.

Not Wanted in Sweden
Washington. — William Hohenzollern two months before the armistice was signed planned an asylum in Sweden, but was prevented from going to that country by the Swedish authorities, according to diplomatic advices made public.

Tree Planting
On Irrigated Farms

Is Recognized As Having Vast Practical Importance

The following comment on the Canadian Pacific Railway Company's policy of supplying trees to farmers on irrigated lands, is taken from the Canadian Forestry Journal:

"A far-seeing scheme of tree planting has been put into effect by the department of natural resources of the Canadian Pacific Railway Company on the irrigation block east of Calgary. Naturally devoid of any tree growth and yet with great potentialities in agricultural production under the stimulus of an irrigation system, it was early realized by the management that no matter how fine the building that may be put up on the bald prairie, it can never be a real home unless there are some trees and shrubs upon the ground. Most of the settlers coming to the irrigated lands had their origin in well treed districts and all of their old associations are very intimately connected with the trees growing about their old homesteads and the leaf-shaded lanes through which they played as children."

"The aesthetic side of prairie farming is coming to be recognized as having vast practical importance. For example, if a settler can be induced to become interested in the appearance of his farm, particularly to the point where he will plant a grove of trees, it is reasonably certain that he will soon have something more than a transient business interest in the property. Once that attitude is developed it is but logical to assume that the settler will not start out to 'mine' the soil with the object of getting as much quick money as possible and then selling out. The Canadian Pacific Railway Company has done a splendid service in encouraging planting of trees around the homes on the irrigation block and has distributed each year, without charge, quantities of trees which have been found by experiment to be hardy in the district."

Coca-Cola Factory

Regina, Sask. — Construction work on the new factory to be erected here by the Coca-Cola company for the manufacture of the delectable drink has commenced. The factory is being built on the east side of Cornwall street between Eleventh and South Railway, the joint valuation of building and machinery being in the neighborhood of \$100,000. The building will be a one-story structure of Medicine Hat tile brick and will be erected by Carter Hall & Aldinger of Winnipeg. The plant is expected to be completed and in operation by April 1.

Still Opposes Law

Toledo, O. — In what may be his farewell public address before he begins serving a ten years' sentence imposed by the federal court here on a charge of violating the espionage act, Eugene V. Debs, socialist leader, upheld the Bolshevik rule in Russia and referred to Lenin and Trotsky as the "foremost statesmen of the age."

Asthma Cured
To Stay Cured

Thousands Testify to the lasting benefit secured from Catarrhazone

CURES WITHOUT DRUGS

One of the finest discoveries in medicine was given to the public when "Catarrhazone" was placed on the market about fifteen years ago. Since then thousands have been cured of asthma and catarrh. An interesting case is reported from Calgary in a letter from Creighton E. Thompson, who says:

"Nothing too strong can be said for Catarrhazone. I suffered four years from asthma in a way that would beggar description. I went through everything that man could suffer. I was told of Catarrhazone by a clerk in Findlay's drug store and purchased a dollar package. It was worth hundreds to me in a week, and I place a priceless value on the benefit I have since derived. I strongly urge every sufferer to use Catarrhazone for Asthma, Bronchitis and Catarrh."

Aviator Makes Quick Flight
Toulouse. — Lieut. Lemaître, a leading French aviator during the war has completed a flight from Toulouse to Casablanca, on the western coast of Morocco, a distance of -900 kilometres (approximately 1,180 miles) in eleven hours' actual flying time. The lieutenant and a passenger left Toulouse at noon Saturday and landed at Casablanca at five o'clock Sunday afternoon. The whole voyage which lasted 29 hours, was made in two stages.

Never Troubled
With Headache

This Relief From Suffering Fully Appreciated by the Writer of This Letter—Tells Others How Cure Was Effected

South Fork, Sask., March 25.—Mrs. Letts of this place has a happy experience to relate. She suffered terribly with headaches, but headache medicines never seemed to help her. The trouble came from torpid, sluggish action of the liver, kidneys and bowels and when this condition was overcome by the use of Dr. Chase's Kidney-Liver Pills, the headaches disappeared, and Mrs. Letts felt that her health was greatly benefited.

Mrs. A. F. Letts, South Fork, Sask., writes: "I suffered from terrible headaches, so severe I thought sometimes I would go crazy from them. No remedy I ever tried helped me until I used Dr. Chase's Kidney-Liver Pills. Since using these I can say I am never troubled with headaches now, and feel much better generally."

This statement is endorsed by Mr. O. P. Cole, Postmaster at South Fork, Sask.

Mrs. F. L. Harris, Keatley P. O., Sask., writes: "I was suffering from liver trouble and had a heavy pain in my one shoulder-blade all the time, and was nearly as black as dirt around the eyes. So I concluded to try some of Dr. Chase's Kidney-Liver Pills. I did so, and before I had taken one 25c box the pain had left me, and I commenced to gain in flesh, and by the time I had taken two boxes I was completely cured and felt like a new person. My trouble was caused by heavy work out of doors, and, of course, heavy eating, and constipation. I would advise anyone suffering from Kidney or Liver trouble to give Dr. Chase's Pills a trial."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Refuse substitutes. The genuine bears the portrait and signature of A. W. Chase, M.D., on the label.

Will Attempt Rescue

Dawson. — Captain Peterson, with the gas steamer Herman, will make a determined effort to reach Banks Land to rescue three white men and four native families marooned there, according to word brought here by the R.N.W.M.P. It is reported they have supplies for three years. The Herman tried to reach Banks Land this year but was forced back by the ice before reaching Cape Parry.

Russian Prisoners Escape

Berlin. — While soldiers who had been called to suppress rioting in Sandau were absent from the Ruhleben camp, about 5,000 Russian prisoners of war in that camp made their escape. The Russians are now wandering about the country to the terror of the country folk.

Thousands Die in Petrograd

Berne. — During the months of December and January, nearly 100,000 persons in the city of Petrograd died from hunger and as the result of epidemics, according to official statements, as reported by Swiss refugees who arrived from Russia. There were 400 of the refugees in the party.

SUNDAY SCHOOL LESSON

LESSON FOR MARCH 23—ISRAEL WARNED AGAINST COMPROMISE

Joshua, knowing that his life was drawing to a close, summoned the leaders of Israel to appear before him. He knew the tendencies which the nation was developing and the peril which faced it as his leadership was coming to an end. His jealousy for God and solicitude for them prompted him to assemble them and point out the great dangers which confronted them.

1. A Review of What God Had Done (23:2, 4).
2. God had fought Israel's battles (v. 3). He gave them victory over the strong nations which inhabited Canaan. Striking evidences of this are the capture of Jericho and victory at Gibeon, when the sun stood still at Joshua's command. This victory had been secured quickly, which indicates that God had interposed in their behalf.

2. God by the hand of Joshua had apportioned the land among the tribes (v. 4) for an inheritance. In chapter 24 Joshua rehearses the wonderful things God had done for the nation extending from Abraham down through the ages.

2. Points out the Promises as yet Unfulfilled (23:5-10).

1. "He shall expel them before you" (v. 5). The actual possession which God had given was the pledge that he would give them full possession. God's promise was the guarantee of this. In view of God's faithful performance of all his promises, there should be no room for doubt.

2. "One man of you shall chase a thousand" (v. 10). The reason of this was because the Lord God would fight for them. To have the Lord fight for us is to have the assurance of victory regardless of how few or how many.

3. The condition upon which these promises would be realized (1). "Be very courageous" (v. 6). At a time like this it required courage to look to God for all the nation's needs. (2) "Keep and do all that is written in the law of Moses" (v. 6). Fidelity to God's law was essential. Turning aside in any particular would forfeit their claims upon him. (3) "Keep aloof from the Canaanites" (v. 7). This separation was to obtain with reference to (a) marriage among them (b) idolatrous customs. (4) Cleave wholly unto God (v. 8).

3. Solemn Warnings Issued (23:11-16).

1. Take good heed that you love God sincerely (v. 11). Love to God is the sum total of duty toward him. 2. Refrain from intermarriage among the Canaanites (v. 12). For God's people to intermarry among the heathen is to set in motion influences which would issue in confusion and disaster.

3. God will make the heathen snares, traps and scourges instead of giving victory over them (v. 13).

4. Evil things will come upon them just as good things had been done for them even to their destruction (v. 15).

5. The wrath of God kindled against them (v. 16).

The Indian women of the six nations are sending a wedding gift of an oil painting of the old Mohawk Church of the Six Nations Indians, to Princess Patricia, whose father is a chief of the tribe.

To Relieve Catarrh, Catarrhal Deafness And Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmit (Double Strength). Take this home and add to it 1-4 pint of hot water and a little granulated sugar; stir until dissolved. "Take one tablespoonful four times a day."

Parmit is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are nearly always quick and effective.

Every person who has catarrh in any form, or distressing, rumbling, hissing sounds in their ears, should give this recipe a trial.

Land Sales Brisk
Saskatoon, Sask. — Real estate dealers report that many inquiries have been received within the last two months from persons intending to purchase Saskatchewan farm lands. Three local companies state that the majority of their inquiries have come from the United States. Selling has been fairly good during the last two months, and it is expected that it will be unusually brisk during March.

Horse Sales to Be Held
Moose Jaw, Sask. — A series of co-operative horse sales will be held under the auspices of the agricultural societies throughout the older settled parts of the province by the Saskatchewan department of agriculture, the object being to find a profitable home market for the surplus of farm horses which exists in certain parts of the province.

Road Drag Competitions

Open to the Councils of Organized Rural Municipalities

Road drag competitions have been carried on for several years in the prairie provinces of Canada. They are generally open to the councils of organized rural municipalities, duly affiliated automobile clubs, and duly authorized good road associations.

Awards in the competition carried on by the department of "highways of the province of Saskatchewan in 1918, have just been announced. Five prizes, aggregating \$500, were offered in each of six districts. Three grand prizes, also aggregating \$500, were offered in addition, open to the whole province. In the competition there were sixty-six entries, as compared with forty-four in 1917. The first grand prize was won by the rural municipality of Marriott, for the second year in succession. An automobile club and a good roads association each won awards.

Manitoba's Surplus

In presenting his annual budget before the provincial legislature at Winnipeg, the Hon. Edward Brown claimed that the province had a revenue surplus of \$322,876 on hand in cash. Manitobans possess \$44,000,000 in Victory bonds, which means that every man, woman and child in the province has produced for the nation \$140. The amount subscribed; added to patriotic contributions, totalled \$34,000,000, Mr. Brown said.

SAT UP IN BED TO GET HER BREATH

Palpitation of the heart, shortness of breath, inability to lie on the left side, feelings as if "something" oppressed rising in the chest, dizzy and faint spells, tired, weak, worn out feeling, involuntary twitching of the muscles, sleeplessness, restlessness, etc., all point to the fact that either the heart or nerves, or both, are not what they should be. Any of these conditions should be remedied immediately so as to avoid a complete breakdown of the whole system.

Minburn's Heart and Nerve Pills will bring energy to the weakened constitution, strengthen and regulate the heart, and tone up the tired, overstrained nerves.

Mrs. William Steeves, Chemical Road, N.B., writes: "I have been a great sufferer from nerve troubles and palpitation of the heart, which was so bad I had to sit straight up in bed to get my breath. I could not lie on my left side at all. I tried doctor after doctor, also several different remedies, but got no help from them. My mother insisted on me trying Minburn's Heart and Nerve Pills. By the time I had used one box, I was feeling very much better. I took in all three boxes, and now I am in perfect health and can enjoy a good sound sleep, and can lie on my left side without any trouble."

TEETHING TROUBLES

Baby's teething time is a time of worry for most mothers. Baby's little gums become swollen and tender; his bowels get out of order and constipation, colic or even diarrhoea sets in.

To make the teething period easy Baby's Own Tablets should be given the little one. They sweeten the stomach; regulate the bowels and keep baby good natured. Concerning them Mrs. Marcel D. LeBlanc, Memramcook, West, N.B., writes: "I have used Baby's Own Tablets for the past six years and have found them indispensable. To my mind nothing can equal them in allaying the fever accompanying teething. I would not be without them and can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A request for two bushels of Marquis wheat came from South Africa recently to R. Charles, of Minnedosa, who secured it from Mr. Pearce, and it has been forwarded to that country. It is to be used for seed, and to determine its suitability for the climate there.

The Oil for the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

Keep Aviators In the Far East

London. — In presenting the air campaign estimates to the house of commons, General Seely said it was intended to keep 102 squadrons for defence, but that the country would not rely so much on the number of machines, as in remaining in the forefront of aerial development. Air forces, he added, would be maintained in Egypt, Mesopotamia, Archangel and the near and middle east. He pointed out that the political officer at Bagdad would be able, by airplane, to carry out in two days, the same number of inspections, in order to secure continuous friendly relations with the inhabitants, as would previously have taken two months.

General Seely said that a large part of the estimate would be available for the encouragement of civilian aviation. Dilating on the enormous scientific development in aviation, he included the discovery of the wireless telephone, by which aviators are able both to send and receive from the same operator.

Row Over Flax Seed

British Government Intended Surplus for Prairies But Ontario Gets in First

Ottawa. — There is a merry row on over possession of ten thousand bushels of flax seed, which represents the unexported residue of the 110,000 bushels commandeered for the British government last year. A cable received says the British government consents to the seed being diverted to Manitoba and Saskatchewan to be reproduced there. Western Ontario interests claim they have the first call on it and that their industry will be wiped out practically unless they get it. They are also representing that flax seed cannot be grown in the west. Some hot cables were sent. The department, it is said, is backing up the Ontario producers' claims.

Australian Trade with Canada

Two New Freighters Being Constructed for This Service

Vancouver. — M. Charles Holdsworth, managing director of the Union Steamship Company of New Zealand, who has arrived here to take passage home on the steamship Niagara, after spending two years in England, announced that the company not only intended to replace all the ships lost during the war, but also to add another mail ship, faster and bigger than the Niagara, to run between here and New Zealand and Australia. He said the company was looking for the development of a great Australian trade with Canada and the United States. Two new freighters of 9,000 tons each are being constructed for this service, and will be completed by the end of March. Negotiations are also in progress for the purchase of three other cargo ships for delivery four months hence.

Trouble in China

Pekin. — Grave developments are feared as an outcome of the deadlock in the internal peace conference at Shanghai, called for the purpose of adjusting differences which have led to fighting during recent months between troops of the north and south. It is stated here that the militarists hope that the conference will end in failure, so that they may be enabled to resume their campaign against the south.

No Airplanes in War

Paris. — The aerial terms of the German disarmament as adopted by the supreme war council provide that airplanes and dirigibles shall no longer be used for military purposes. The council concluded that it was not feasible to prohibit airplanes for commercial uses.

Freedom Sought By the Koreans

Seoul. — The declaration of Korea's independence says it represents the voice of twenty million persons speaking in the name of justice and humanity.

"We are no mean people," the declaration continues. "We have 43 centuries of history as a distinct self-governing nation." It is our solemn duty to secure the right of free and perpetual development of our own national character, adapting ourselves to the principles of the reconstruction of the world.

Food for Poland

Paris. — The food relief of Poland is proceeding smoothly, according to Herbert Hoover, in spite of the fact that the risk is too great to send trans-Atlantic steamers all the way to Danzig owing to the Baltic not being free of mines. A large proportion of the food is being discharged at Rotterdam and Copenhagen, and is then trans-shipped in smaller craft to Danzig.

Good Work Of the Navy

London. — Walter Hume Long, first lord of the admiralty, moving the vote for the naval personnel of 280,000, said the British navy had nobly borne its full share in the attainment of peace which was now within sight.

The admiralty was preparing a statement of the navy's part in the war, which was one of the most wonderful stories ever told. The navy's activity in the war had been universal and it had appeared in almost every sea in the world and had prominently participated in every campaign.

Dreadnoughts Not Being Constructed

Great Britain Abandons Work On Those Partially Completed

London. — Replying to a question in the house of commons, Thomas J. MacNamara, parliamentary secretary to the admiralty, said that no dreadnought battleships were under construction on Dec. 31 last.

He added that four dreadnought battle cruisers were under construction on that date, that work on three, which were in very early stages, had been abandoned and the ships upon which they were being built had been freed for merchant ship construction.

On the same date, he said, Great Britain had 33 dreadnought battleships and nine dreadnought battle cruisers, all of which were in commission, with exception of one battleship and one battle cruiser. So far as he knew no capital ships will be laid down this year.

More Cruel Than Bolsheviks

London. — The behavior of the Spartans in Lichtenberg was worse than the Bolshevik cruelties in Russia, Berlin advices received in Copenhagen and transmitted by the Exchange Telegraph company say.

All well-dressed citizens appearing in the streets were robbed and many were killed. Several persons were decapitated and the heads were carried through the street by female Spartans. The government troops, it is added, continue to kill every prisoner they take.

Berlin. — The Spartans have opened negotiations for surrender to the government forces, according to reports in circulation.

Labor Situation Is Better

Ottawa. — Reports from the government employment offices operating throughout Canada show that out of a total of 1,851 applications, 1,024 have been placed in suitable positions and the general labor situation appears to be brightening.

In Montreal, for instance, 280 soldiers applied for positions, but 308 were placed.

Indemnity Bills Presented

Amounts Claimed Cannot Yet Be Made Public

Paris. — All the belligerent nations have presented their bills for indemnity to the commission, except France.

The amounts claimed by the various nations from Germany cannot yet be made public, the commission reserving to itself the right to give out the figures. It can be stated, however, that Belgium's demand totals between thirty billion and forty billion francs—twenty billion francs for actual physical destruction and the balance for thefts, unpaid-for requisitions, seizures and the like. This is the largest figure claimed by any of the belligerents with the exception of France.

British Army of Occupation

London. — The government announced in the house of commons that the total strength of effective and non-effective British troops in the armies of occupation in all theatres of war amounted to 902,000 men, including officers. The strength of the British army in France, Belgium and Germany, including Dominion troops, on February 1, was 1,324,106. It was stated that 197,000 German prisoners are being held by the British commissary department.

Oriental Start Run on Bank

Police Reserves Were Called to Handle Crowds

Vancouver. — A scene closely resembling one of the panicky days during hard times was enacted here when a run was started on a Japanese bank in which Hindus as well as Orientals had money deposited when rumors of alleged insolvency of the bank started at a shingle mill employing Asiatics and shortly after the noon hour, a wildly dishevelled mob made its way to the bank in an automobile, presented their deposit books and demanded their savings.

From this incident rumors spread until there was a great crowd of Orientals demanding their money. Police reserves were called in to quell what had the appearance of a near riot. Consul Ukita was appealed to and in a short time two automobiles of crisp bills were on their way to the bank from another bank and were soon arrayed in plain sight. Consul Ukita addressed the crowd and many of them redeposited their money before leaving the bank. The greatest number of withdrawals, however, were made by Hindus, who took their bills away with them. Several shingle mills were sadly crippled for help during the afternoon when their Asiatic employees made a wild dash for the bank.

Aim at World Revolt

Russian Soviet Appoints New Minister to Promote Program

London. — The Russian Soviet government, with a view to promoting a plan for world-wide communist revolution, has appointed a new minister to be known as international commissary, according to a Helsingfors dispatch to the Mail, quoting advice from Moscow.

The new minister is a Swiss named Moor, who was a friend of Nikolai Lenin, the Bolshevik premier, and Leon Trotsky, the Bolshevik minister of war and marine, when they lived in Switzerland. Moor is said to have been given unlimited financial and political powers at Moscow. His under-secretary is reported to be a former French army captain named Sanoul, who went to Russia with the French Socialist leader, Albert Thomas, during the Kerensky regime.

An important role in the ministry is also attributed to a "British friend" of M. Tchitcherin, the Bolshevik foreign minister.

Favor Liquor Vote

Winnipeg. — Manitoba grand orange lodge has unanimously adopted a resolution introduced by James Wiloughby favoring a Dominion wide referendum on prohibition.

Rule of Blood In Petrograd

Reds Plunder City

London. — A Copenhagen dispatch says that the nature of the fighting between government troops and Spartacan bands in the eastern suburbs of Berlin seems to indicate that local Spartacan groups have been formed for "no other purpose than to plunder the city." An Amsterdam message says that a Spartacan adherent was captured and in his possession were found jewels valued at 800,000 marks. The message adds that the man was executed.

Stockholm. — All the relatives of officers of the eighty-sixth Russian regiment, which went over to the White Guards as against the Soviet government, have been executed, according to dispatches from Petrograd. The executions were ordered by the military revolutionary committee of Petrograd. A number of well-known Russian officers, it is added, also have been executed, after being convicted of charges of having spread false rumors regarding the Soviet government.

Assassination Was Deliberate Plot

Vienna Court Wished to Get Rid of Archduke Ferdinand

Berne. — Charges that the assassination of Archduke Francis Ferdinand and his wife, the Duchess of Hohenberg at Sarajevo on June 28, 1914, was the result of a deliberate plot by the late Count Tisza, former Hungarian premier, are made in a pamphlet written by a priest who was the spiritual adviser of the Duchess of Hohenberg, according to a Vienna dispatch to the Frankfort Gazette. The pamphlet entitled "The Sarajevo Murder and Count Tisza's responsibility for the World War," is said to have made a profound impression in Austria.

It is declared that Francis Ferdinand repeatedly refused to go to Sarajevo and it was only an appeal to his courage that induced him to make the trip.

"The most elementary precautions were omitted," it is stated by the priest. "He was simply led into a trap prepared by the court at Vienna and by the Hungarian aristocracy, headed by Count Tisza."

The general idea of the pamphlet is that Magyar magnates with the consent of the Vienna court wished to get rid of the archduke, who was extremely disliked, and obtain vengeance for the murder at the expense of the Jugo-Slavs, who would be made helpless. It is pointed out that no "proper" enquiry was ever made into the tragedy, and that no one was made responsible for the fact that precautionary measures were not taken.

North Pole Route Proved a Failure

Explorer and Men Landed Near Starting Point

Dawson. — Storker Storkerson, explorer, and his few men who landed on an Arctic ice floe last year, expecting to float toward Siberia, have landed near the mouth of the Colville river, Alaska, not far from Baker's Land, where they started, according to word brought here by the Royal North West Mounted Police.

The party established a camp in March, 1918, on an ice floe, thirty miles long, seven miles wide and from fifty to one hundred feet thick. On this they drifted one hundred miles west, seventy miles north, and fifty miles east, according to reports. They landed November 7, 1918. While on the floe they subsisted on polar bears and seals.

Storkerson is reported to be on his way to Ottawa.

Table Natural Resources Report

Winnipeg. — "The negotiations are not closed and we hope before the end of the present session of parliament at Ottawa they will take up again the question of the transfer of the natural resources in the provinces in the west," said Premier Norris, in laying upon the table of the legislature the report of the conference between the Dominion government and the representatives of the nine provinces.

Selling Hun Submarines

London. — More German submarines will be sold and the money realized distributed among the allies on a scale to be adopted by the supreme council, T. J. MacNamara, parliamentary secretary to the admiralty announced in the house of commons. Mr. MacNamara stated that already 54 German submarines had been sold. He also said the supreme council had not yet decided what was to be done with the other German ships.

The provisional composition of the Mediterranean squadron was six battleships, six light cruisers, a destroyer flotilla and a submarine flotilla.

Mr. MacNamara stated that Heligoland was still in possession of German armed forces and protected by unsundered portions of the German navy. The peace conference, he said, was considering the future status of Heligoland, German possession of which constituted a valuable adjunct to the sea power of Germany.

Work of Airplanes

8,000 Enemy Planes Downed By British During the War

London. — During the war 8,000 enemy airplanes were shot down by the British air force, while 2,800 British machines were missing. Brig. Gen. J. E. B. Seely announced in the house of commons on introducing the army's air estimates of £66,500,000.

General Seely said if the war had continued the estimate would have been £200,000,000.

When the armistice was signed he added, England was turning out 4,000 airplanes a month and had 200 squadrons in commission, compared to six at the beginning of the war.

Eight Hour Day for Spanish

Madrid. — The Spanish cabinet decided to grant an eight-hour working day to the building trades throughout Spain, wages to be fixed by committees of employers and workmen in each district. The cabinet also approved a bill to insure workers against unemployment.

Silesian Troops Aid Russia

Basel. — Silesian troops, acting in agreement with the central soldiers' council, have occupied the public buildings of Breslau, according to advices from that city. This action was taken owing to the discovery that Spartacan leaders were arriving in Breslau from Berlin with the purpose of occupying the buildings and delivering the town to pillage.

Aerial Terms Settled

Paris. — The supreme council discussed the aerial terms to be imposed on Germany in the peace preliminaries, according to official announcement. The articles drafted by the military experts were examined and adopted.

The Wrong Medicine

A community is no better than the men and women who live in it. If YOU and I do ill our community suffers. But it is useless to look far away for the remedy. The real remedy is near at hand. It is we who are able to kill or cure. The wrong medicine kills—the medicine that bears the out-of-town label. But the tonic that cures is the practice of "trade-at-home." Let us all—each one of us—from this day on practice and preach, "trade at home."

People to Decide

Government of Alsace Left to Inhabitants

Strasbourg. — A council of Alsace-Lorraine at a meeting here has adopted a plan for the re-organization of the administration of the two provinces, according to the wish of the inhabitants. A French high commissioner, with headquarters in Strasbourg, will centralize all French service under his authority and will act for the French minister of war in matters which now have to be referred to Paris.

A number of members of the council from Alsace-Lorraine will assist the commissioner as a permanent consultative commission. The council adopted a resolution insisting upon the necessity of hastening the elimination of all German elements from the public service.

To Gather Mines With Airplanes

Paris. — While it is expected the terms of peace will prohibit the use of airplanes by Germany for war purposes, the drafting committee was directed to make clear the distinction excepting commercial airplanes in the terms incorporated in the peace terms. All forms of military airplanes are barred to Germany, the only exception being the temporary use until October 1, of 100 hydro-aeroplanes and 1,000 men in gathering mines in the North sea.

Boundary Dispute Settled

Will Restore Belgium's Sovereignty and Eliminate Her Neutrality

Paris. — The report of the commission on Belgian affairs, charged with investigation of the differences between Belgium and Holland, has been submitted to the council of the five great powers. It advises that the three treaties of 1839 establishing the status of Belgium and Holland be revised by the council as they now are "useless and disadvantageous to Belgium."

The three treaties are identical except as to the signatories. Belgium and Holland signed one and Holland and Belgium each signed one with Great Britain, France, Austria, Russia and Prussia. Three of these powers have disappeared and the treaties have become "scraps of paper," which Germany violated by invading Belgium.

The proposed revision of the treaties will restore Belgium's complete sovereignty and eliminate her neutrality, which afforded no protection, and is now distasteful. Holland will be summoned before "the big five" shortly to discuss revision of the treaties.

Paris. — Estimates so far received from Latin American governments of damages incurred in the war indicate that the total bill for reparations from those countries will be approximately \$1,000,000,000.

Have Themselves to Thank

Huns Created Situation in Regard to Shipping

London. — Control of the German ships is a necessary condition to the feeding of the German people and the Germans have made that situation, declares the Westminster Gazette in discussing the break in the shipping negotiations at Spa. Again and again during the last two years the paper adds, it has pointed out to them the destruction of merchant tonnage by their ruthless submarine warfare would produce a situation in which it might be totally impossible to supply Germany herself with the food and raw materials which she would need when the war ended.

This is the often predicted nemesis of ruthless submarine warfare. If the allies are unable, from lack of tonnage, to send sufficient coal and food to their friends, the use of German tonnage will enable them to do justice to their friends and at the same time provide for their enemies, but we are obliged to tell the Germans that this is the only way, and if it seems harsh and repugnant they have themselves to thank for it.

MIND YOUR STEP, HENRY

We trust that the rumor is a fake. We sincerely hope that there is nothing to it.

It is our fervent prayer that he expects to do nothing of the sort, but to go on as usual. He always had a sneaking fondness for him.

What are we talking about? That report that Henry Ford was going to buy some 36 daily newspapers and start a national journal is the chain.

Henry, to date, has done right well. He has made it in the auto industry, and gives a piece of the trimmings of a championship prize fight.

He has worked mechanical, industrial, executive and publicity marvels, and has boasted tens of thousands of workers into affluence.

But if he thinks anything he has ever learned has fitted him for the job of handling public opinion on the backing backs of 16 different papers he needs instruction.

Henry we like you a lot.

We want to see you retain your sanity, your faith in human nature, your fortune and your public standing.

And we tell you as a father, are pleased with you, for the love of which you may lay off this wholesale eating.

Our healthy newspaper would give you the wiles in a week.

Sixteen shenanigans ones, and probably they would be unhealthy, would not only hurt you, but they would hurt the U.S. and they would hurt you, make a number of you and probably lead you to a padded cell where you would spend your nights crying "Urrr! Urrr!" And you say trying to find that mislaid editorial policy.

If you must paysh start in with a monthly, or semi-monthly, try your hand, say, on editing an alternate until you get accustomed to the dizzy dizzy speed.

We mean it, Henry.

The following notice was posted in the post office at Gleichen, by one of the councillors of that municipal district:

The Calgary Industrial Exhibition is about to commence the erection of permanent buildings at Victoria Park. The buildings to be erected this year will be a concrete grandstand seating 8,000 people, costing approximately \$60,000, and a drop-out cattle barn and salting station about 1,500 people under the same roof as the cattle will be stabled. The cattle barn will likely accommodate between two and three hundred head, and will be added to next year to bring the cattle accommodation in this one stable up to six or seven hundred head. The cattle barn and salting station will be erected between the race track and the office on the ground now occupied by the racing barns. In this location, the buildings will be convenient for the housing of cattle at the Summer Exhibition and at the Winter Fair and bulls at the Spring Bull Sale, and will provide Calgary Exhibition with possibly the best cattle accommodation of any exhibition grounds on the continent. This building will permit of the Spring Show and Bull Sale being held at the same time in future. This year the Horse Show will be held at Calgary, March 15th to 18th. Great interest is being taken in the show, and it is expected that it will be as interesting as the old-time horse shows before the war. The Spring Bull Sale will be held at Calgary, April 15th to 18th. And it is expected that between eight hundred and a thousand bulls will be offered. Catalogues and price lists may be obtained by writing to E. L. Richardson, Secretary, Alberta Live Stock Association, Calgary.

LIVESTOCK IN GOOD CONDITION

Travelers in Western Canada are strongly impressed with the excellent appearance of the live stock this winter. In Southern Alberta and other parts of the West thousands of cattle are to be seen on farms and on the range that have not had anything at all to do other than what they have picked up on the prairie or the pas-

ture. The condition of these animals is all that could be desired. Purebred horses, beef calves and sheep are raising for themselves and are looking splendidly well. On one large ranch in the Southern Alberta there are over four thousand calves, and one would have to go some a long way to see better animals in such numbers. These animals also forage a good deal for themselves, and receive in addition from four to six loads of hay daily. The general condition of the stock speaks well for the nutritious grass on which these animals are feeding, and for the mildness of the climate.

T. H. Beach will offer for sale by auction a fine bunch of imported horses at Taylor's barn, Gleichen, on Friday, March 21. The property of H. B. Parent of St. Bernard.

FURS! FURS! FURS!
 Ship to us direct.
 Top price paid and equitable grading made.
 No delays at any point.

We are registered with the United States Fur Trade Board and all of the Collectors of Customs under license P.B.F. 30, and you can send your furs to us direct by our tag or any tag, changed to suit, if marked "Furs of Canadian Origin" and your furs will come right through.

FAIR GRADING
 The rules and ethics of the exchange do not permit of sending out alluring price-lists, yet we give you an exact and expert grading and pay you at a rate of five to twenty-five cents more on the dollar than the average advertising fur company as we cut out all middle-man's profit in dealing with you.

ALBERTA INDUSTRIAL IMPORTANCE
 Dependent on agricultural development. Alberta's industry is steadily assuming substantial importance. Last year the total amount of the province was approximately \$22,000,000. From her coal mines the payroll is approximately \$12,000,000 a year. From her railways \$12,000,000, and from other industries, exclusive of farming, \$11,000,000. There are some 1,200 industries in the province, not counting railways and mines.

NEW ROADS FOR MANITOBA

More than 1,200 miles of good roads involving an expenditure of two and a half million dollars, may be constructed in Manitoba during the coming summer. Plans for this work have been prepared and will come before the provincial government for ratification at the forthcoming session of parliament. At the present time there are about 5,500 miles of constructed roads in the province; 500 miles of gravelled, and 5,000 earthen embankments.

Note "The Wrong Medicine" sketch on page 3.

J. M. Telford arrived last Friday from New Westminster, B. C. He looks fine and says he feels like a two-year-old.

Miss Eider, manageress of the Cluny Busy Store, spent from Friday to Sunday visiting Gleichen friends and her brother near Standard.

H. T. Lyon has taken the agency for the Sovereign Life Assurance Company of Canada for Gleichen and vicinity. The Sovereign Life's head office is in Winnipeg and the provincial office is in Calgary, under the management of A. C. Harris.

Keith Fender and Bob Stabback have entered into partnership and leased Pickard & Tuck's former store on Third avenue, where they will open a new stock of men's furnishings on April 1. Everyone will wish these young men every success.

An entertainment given under the auspices of the Union Church Circle will be held in the church on Wednesday evening, March 26th, at 8 o'clock. In addition to musical numbers Rev. Thomas Powell of Calgary will deliver a popular lecture entitled, "Other People we Meet." The ladies of the congregation will serve lunch. Admission 35 cents.

J. F. Daniels, experienced painter and paper hanger, will be ready to do your work after the first week in April, having had 15 years experience in Ontario. All work guaranteed and prices reasonable. Estimates given and contracts taken in town or country. Work solicited. Leave orders at Brown's Transfer, Phone 80, or write general delivery Gleichen.

J. H. Walls is so crowded for implement room he is quitting the harness business. Read his bargains on page 6.

The debate and dance given by the Gleichen Young Men's Club and the Citizens Band proved most interesting and a grand time was had by all who attended. As the financial statement is not yet available the report is left over to next issue.

IN MEMORIAM

John D. Allen was born February 2, 1838, at Carlinville, Ill., U.S.A., and died March 14, 1919, at Gleichen, Alberta, Canada.

The fiftieth anniversary of his marriage life to Eliza J. Gore would have been April 7th of this year and to this union eight sons and two daughters were born.

The deceased lived most of his life in Illinois and came to Canada in 1912, where he lived a very active life for one of his age. His ailment was not due to any particular disease, but he underwent a successful operation last October and although he seemed to gain for a time he never entirely recuperated. Aside from the wife and daughter Mrs. S. R. Kirby, at whose home he passed away and Roy M. Allen of Queenstown, the deceased has one brother, three sons and one daughter residing in the States who are left behind with the consoling thought that he is with his loved ones gone before and we shall all see each other there. The body was laid to rest in the Gleichen cemetery beside that of a little granddaughter.

Quelletteville News

The parties and entertainments we have had, in this settlement of late reminds me of an incident that occurred not so long ago.

As a party of cowboys were rearing the prairie they halted at an empty house, whose occupants had retired to spend their remaining days in the apple groves of B. C. When the cowboys found the house was apparently deserted, and knowing something of the characteristics of the previous owner, they commenced to hunt about for probable "chink" in old stocking legs and dry places; when, lo and behold,

they discovered a big cache of White Horse. Feast—it was about three days later that they remembered they had horses somewhere and they must return to civilization, but not before they crammed everything full of the beautiful white one. Wonder how our B. C. friend felt when he heard just how the awful calamity happened?

The United Producing Co. is sending to Gleichen another good musical comedy on April 2nd—"The Smiles". The United Producing has never failed to send us something good, so get your smiles ready.
